## Kane County is 100% Transparent

Out of the 102 counties in Illinois, Kane County was ranked #1 in transparency with a perfect 100 percent score.

Kane County is the only county to receive a perfect score from the Illinois Policy Institute (IPI), an independent research and education organization. The score was calculated by the IPI using a 10-Point Transparency Audit. From the audit, results showed only three counties scored above 90 percent and the average score was 25.7 out of a possible 100.

"We are very proud to be recognized for our level of http://www.countyofkane.org/Pages/commDisp.aspx?focusID=1 13commitment to transparency," Chairman Chris Lauzen said. "Everyone at Kane County has and continues to work very hard to make sure that we have as accurate and useful information available on our website as we can."

Lauzen said transparency is a great goal to strive toward, but that transparency is only part of the equation. He said the information needs to be easily accessible and straightforward. For more information feel free to view the Kane County News at:
