## 2023 Kane County Guardrail Improvement Project

April 10, 2023 - Guardrail removal and replacement along various roads throughout the County will begin the week of April 17<sup>th</sup>, weather permitting. This work is part of the Kane County Guardrail Improvement Program and is anticipated to begin on the north side of the County working towards the south until all work is complete. The work shall include replacement of guardrail, shoulder widening, and new hot-mix asphalt shoulder to improve safety on County highways as indicated on the attached map. The County's typical process is to remove and replace old and/or outdated guardrail to achieve a high level of safety for the motoring public. The work is anticipated to be completed by the end of July, weather dependent.

Temporary daily lane closures on the roads under construction will be required Monday through Friday from 7:00 AM to 4:00 PM to safely accomplish this work. Temporary daily lane closures are scheduled to start in the north end of the county, working their way south until all identified guardrail is replaced or repaired. The proposed north to south progression may change as weather impacts may dictate alternate working sequences. Temporary flagger control of intersections will be required along the entire route in order to safely accomplish the required work.

Route	Location
1	Burlington Road Approx. 475-Ft NW of Elliptope Rd. S8
2	Burlington Road Approx. 140-Ft NW of Elliptope Rd. S8
3	Burlington Road Approx. 375-Ft NW of Elliptope Rd. NWB
4	Burlington Road Approx. 70-Ft NW of Elliptope Rd. NWB
5	Randall Road Approx. 830-Ft N of Horstess Rd. NE
6	Randall Road Approx. 1,300-Ft N of Horstess Rd. NE
7	Randall Road * At Kellogg/Essex Rd. S1 Quad
8	Randall Road Approx. 430-Ft N of South St. S8
9	Randall Road Approx. 110-Ft W of South St. W8
10	Randall Road Approx. 735-Ft of Russwood Ct. E8
11	Randall Road Approx. 735-Ft of Russwood Ct. W8
